

# Accessing 2020 Census Redistricting Data on data.census.gov – Comparing 2020 and 2010 Redistricting Data

With the recent release of the 2020 P.L. 94-171 Redistricting Data, many users may want to compare this data to the data from the previous Decennial Census in 2010. In [data.census.gov](https://data.census.gov), you can do just that! In this informational flier, we will show you how to compare the 2010 and 2020 Redistricting Data within our site.

You'll first want to navigate to [data.census.gov](https://data.census.gov), and then click on the 'Advanced Search' button located directly underneath the single search bar.

From there, select the filters from the panel on the left side of the screen. To find the Redistricting Data, go to 'Surveys' and click on 'Decennial Census' from the list. Then, scroll down the next panel until you see the 'Redistricting Data (P.L. 94-171)' option and click on the checkbox next to it. This action will add this survey filter to your search.

Next, you'll want to select the geography you want to view. For this example, let's choose all counties within the state of Michigan. To do this, go to the 'Geography' filter and select 'County'. Then, scroll down the list of states and select 'Michigan'. In the next filter panel, select 'All counties within Michigan', which is located at the top of the list, and then click on the 'Search' button on the bottom right corner of the screen.

The screenshot shows the United States Census Bureau search interface. The 'BROWSE FILTERS' panel on the left has 'Geography' selected. The 'GEOGRAPHY' panel shows 'County' selected under 'State'. The 'WITHIN (STATE)' panel shows 'Michigan' selected. The 'MICHIGAN' panel shows 'All Counties within Michigan' selected. The 'Selected Filters' bar at the bottom shows 'Redistricting Data (PL 94-171)' and 'All Counties within Michigan'. The 'SEARCH' button is highlighted in the bottom right corner.

There are five tables that will appear in the results page that are available for both 2010 and 2020. The 2020 Redistricting Data also includes a sixth table, P5, 'Group Quarters Population by Major Group Quarters Type', that is *not* found in the 2010 Redistricting Data.

The screenshot shows the United States Census Bureau search results page. The 'Tables' section lists five tables: 'RACE', 'OCCUPANCY STATUS', 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE', 'RACE FOR THE POPULATION 18 YEARS AND OVER', and 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE FOR THE POPULATION 18 YEARS AND OVER'. The 'GROUP QUARTERS POPULATION BY MAJOR GROUP QUARTERS TYPE' table is also listed. The 'Public Use Microdata' section is visible on the right side of the page.

For this example search, let's choose table P2, 'Hispanic or Latino, and Not Hispanic or Latino by Race'. Once we click on the table, it will automatically default to the most recent 2020 data. To toggle between the 2010 and 2020 data, navigate to the 'Product' dropdown menu located at the top of the screen above the table. When you click on the downward facing chevron, you have the option of viewing either the 2010 or 2020 Redistricting Data. When you click on the 2010 option, the table will automatically update to show data from 2010. You can toggle between 2010 and 2020 to compare the data directly and can see the changes in the geographies you've selected.

The screenshot shows the United States Census Bureau data interface. The table selected is 'HISPANIC OR LATINO, AND NOT HISPANIC OR LATINO BY RACE' (TableID: P2). A dropdown menu is open, showing options for 'Product' and 'Universe'. The 'Product' dropdown is currently set to '2020: DEC Redistricting Data (PL 94-171)', and the 'Universe' dropdown is set to '2010: DEC Redistricting Data (PL 94-171)'. The table displays population data for various racial and ethnic groups, with columns for 'Total', 'Hispanic or Latino', and 'Not Hispanic or Latino'. The data is presented in a table format with a 'Label' column and numerical values for each group.

Label	2020: DEC Redistricting Data (PL 94-171)	2010: DEC Redistricting Data (PL 94-171)	Allegan County, Michigan
✓ Total:	10,167	8,842	120,502
Hispanic or Latino	122	115	9,389
✓ Not Hispanic or Latino:	10,045	8,727	111,113
✓ Population of one race:	9,715	8,283	106,387
White alone	9,593	7,323	103,088
Black or African American alone	23	585	1,446
American Indian and Alaska Native alone	57	327	561
Asian alone	14	22	839
Native Hawaiian and Other Pacific Islander alone	1	1	20
Some Other Race alone	27	25	433
✓ Population of two or more races:	330	444	4,726
✓ Population of two races:	320	427	4,488
White; Black or African American	33	13	897
White; American Indian and Alaska Native	148	312	1,824
White; Asian	16	7	508
White; Native Hawaiian and Other Pacific Islander	6	2	35

We hope this informational flier provided insight on how to compare the 2010 PL 94-171 Redistricting Data to the 2020 data through data.census.gov. For more guidance on using our site, please visit our Resources page at <https://www.census.gov/data/what-is-data-census-gov.html>.
